WELCOME NATURAL LIGHT

Pull your drapes aside, and throw the windows open. Sunlight will pour in right from the large windows in all the rooms. The way we've planned your home, absolutely nothing can stop the passage of light. We've done away with the unwanted walls and passages, making sure the light is unobstructed. And that you have a brighter home.

What's more surprising? **GREEN HOMES** is very well lit because each window looks out onto open landscapes. And not other brick wall. Moreover, all the windows have been aligned to let in a steady stream of light.

We've ensured that for as long as you live here, you will never feel the need to use artificial light when the sun's still up.
